SUMMARY

Full-Stack Junior Software Developer with hands-on experience designing and deploying web and mobile applications. Skilled in the MERN stack and React Native for robust cross-platform development, paired with Tailwind CSS for creating highly responsive, modern user interfaces. Eager to bring strong problem-solving abilities and a passion for clean architecture to a collaborative engineering team.

SKILLS

React, Typescript, Next.js, Context Api, React Native, JavaScript, MongoDB, Express.js, Node.js, Socket.io, Data Structure and Algorithm, React Native Paper, Tailwind CSS, HTML, CSS, Problem Solving, Git, Expo, Responsive Design, Firebase, Supabase.

WORK EXPERIENCE

Northsnow Ltd Uk

Jan 2026 - Present

Junior Fullstack Software Engineer

Remote

- Developed and maintained scalable full-stack web applications utilizing the **MERN stack** (MongoDB, Express, React, Node.js) to improve performance and user engagement.
- Built and optimized cross-platform native mobile applications using **React Native**, ensuring smooth performance and a consistent user experience across iOS and Android devices.
- Translated complex design mockups into highly responsive, pixel-perfect user interfaces using **Tailwind CSS**.
- Designed and integrated secure, efficient RESTful APIs to connect front-end components with backend services and databases.
- Collaborated with cross-functional teams in an agile, remote environment to debug code, optimize application speed, and deploy weekly software updates.

Breedware

Nov 2025 - Mar 2026

Junior Frontend Software Engineer (React + React Native)

Full Time

- Developed and deployed responsive web applications using **React**, ensuring seamless cross-browser compatibility and optimized client-side performance.
- Built, tested, and maintained cross-platform native mobile applications utilizing **React Native** for smooth delivery on both iOS and Android platforms.
- Crafted clean, modular, and pixel-perfect user interfaces by leveraging **Tailwind CSS** to accelerate development workflows.
- Collaborated closely with backend developers to integrate RESTful APIs and handle dynamic state management efficiently across application views.
- Participated in code reviews and agile sprints within a remote team environment, focused on debugging complex UI issues and improving accessibility.

Moniways

Jan 2023 - Dec 2024

Intern (React)

Remote

- Collaborated closely with senior software engineers to develop and optimize interactive web applications using **React**.
- Built and maintained reusable, clean frontend components, contributing to a more modular and efficient codebase.

- Utilized modern CSS frameworks like **Tailwind CSS** to build responsive web pages, ensuring consistent layouts across desktop and mobile browsers.
- Assisted in troubleshooting, debugging, and resolving frontend performance bugs to enhance the overall user experience.
- Participated in daily standups and sprint planning sessions, gaining hands-on experience with agile development methodologies in a professional setting.

EDUCATION

Everbright College
